

Reinvigorate your body with your very own

Personal Shower Spa™ from Warm Rain®

Personal Shower Spa™

*For Today's Fast-Paced Lifestyle,
Designed by Warm Rain.*

The Personal Shower Spa™ includes the following factory installed and tested accessories:

Four body sprays with adjustments to control flow & direction

- Volume control allows for individual control of the flow of water from 2.5 gallons of water per minute to a bare trickle for each individual body spray.
- Directional control allows for individual control of each individual body spray to stream the water exactly where it is most comfortable to them
- 19° Swivel in any direction

Two shower heads in one

- Use as a regular shower head
- Use as a hand-held shower
- Use as a combination shower head and hand-held shower
- 5 spray patterns for the ultimate massage therapy
- 3-way diverter directly on the shower arm to control all shower head and hand-held shower options

Pressure Balance Mixing valve with diverter

- 2-Way diverter for control of:
 - 4 body sprays
 - Shower head/handheld shower

Stainless Steel Shower hose:

- Tangle-Free
- 60" hose that extends up to 82"
 - Extended Reach
 - No Hassle Movement

All Accessories are Factory Installed and Tested

Specifications and Installation Notes

Standard locations of:

- Lower Body Sprays – 34" above shower floor
- Upper Body Sprays – 54" above shower floor
- Width between body sprays – 14"
- Mixing Valve & Diverter – 44" above shower floor
- Shower Head – 80" above shower floor

All Accessories are factory installed and tested

Plumbing Considerations:

- Hot Water Requirements
 - If all options are running at once on the Personal Shower Spa, you may use up to 5 gallons of water per minute.
 - The average hot to cold water ratio is 70 % hot and 30 % cold.
 - The average 40 gallon hot water heater will run out of hot water in approximately 11.5 minutes
 - Depending on all hot water requirements in the house, a larger water heater is recommended and will be needed
 - **Please consult with your plumber on hot water requirements and water heater size.**
- Warm Rain recommends at least a 3/4" pipe leading to the Personal Shower Spa

Specifications

All Warm Rain Acrylic Personal Shower Spa fixtures are constructed of a high gloss acrylic .187 sheet with reinforced polyester resin. The reinforced fiberglass includes a minimum content of 18% fiberglass.

The bottom base of the unit is constructed of 1/2" end-grained balsa wood sandwiched between 2 layers of reinforced fiberglass at a content of no less than 18%. The base is an integral part of the unit.

No mortar mix or mud is needed under any Warm Rain model. The bottom base is completely self supporting.

The front apron of all units will have wood support to help prevent the corners from chipping or bowing in or out.

All units will have wood support on the sides of the units for shower door support or a curtain rod bracket support.

All Personal Shower Spas will include the following accessories that are **Completely Factory installed and Tested:**

- 4 – Moen Body Sprays – chrome (Model # A501)
- 1 – Moen Valve with diverter – chrome (Model # 3320)
- 1 – Moen trim kit – chrome (T-4110)
- 1 – Alson 2 in one showerhead – brushed chrome (model # 6466 C)
- 1 – 5' Shower head arm – chrome
- 1 – Sioux Chief stub out (model # 609 - L263X)
- Pex tubing connecting all components together

Unit comes as a complete package for Super Easy and Money Saving Installation

- Set and install Acrylic Personal Shower Spa in pocket
- Hook up plumbing to the factory installed valve
- Install drain
